

AI PrepPulse Hackathon

Build the Future of Interview Readiness

THE CHALLENGE:

Every year, millions of students graduate and enter the job market, but many struggle to assess whether they're truly ready for interviews. They often discover gaps in their preparation only after failed interviews – when it's too late.

Your Mission: Create an innovative tool that helps students objectively measure their interview readiness and identify areas for improvement BEFORE they face real recruiters.

PROBLEM STATEMENT:

Design and develop a solution that evaluates different aspects of interview preparation like **Technical Skills, Resume, Communication gaps, Portfolio**.

Create a tool that assesses a student's profile and provides an overall "Interview Readiness Score" with personalized improvement plans.

Important Note: The evaluation process via this tool should not take more than 2 min. of total time spent by the candidate.

DELIVERABLES:

- **Working Prototype** – A functional MVP enabling candidates to instantly gauge their interview readiness in less than 2 minutes.
- **Readiness Metric** – A clear scoring/rating system (e.g., 0-100 score, beginner/intermediate/expert levels or something else)
- **Actionable Feedback** – Specific suggestions for improvement, not just scores
- **User-Friendly Interface** – Clean, intuitive design that students can navigate easily
- **Demo/Presentation** – 5-minute video pitch explaining your solution

EVALUATION CRITERIA:

- **Impact (20%)** – How effectively does it assess interview readiness in under 2 min. effort of the user?
- **Innovation (20%)** – Is the approach creative and unique?
- **Technical Execution (20%)** – Code quality and functionality including ReadMe file quality.
- **User Experience (25%)** – Design, ease of use, and clarity of feedback; **hosted and publicly accessible solutions will receive bonus consideration.**
- **Presentation (15%)** – Quality of demo video and explanation.

SUCCESS LOOKS LIKE:

A student uses your tool for less than 2 min. and walks away knowing:

- ✓ Their current interview readiness level (scored/rated)
- ✓ Specific strengths to leverage
- ✓ Concrete gaps to address
- ✓ Clear next steps to improve
- ✓ Timeline estimate to become interview-ready

WHO WINS?

The Person that builds the most practical, innovative, and impactful tool that genuinely helps students bridge the gap between preparation and interview success as per the evaluation criteria mentioned above.

Ready to build? Let's help students crack their dream interviews!

Submission Guidelines:

- Users must submit the **link to their GitHub repository** on the competition portal (**Unstop**, where you completed your hackathon registration).
- The **GitHub repository must be public**. Private repositories will lead to **disqualification**.
- Hosting the project is optional but will give you an edge during evaluation.
- **Mandatory:** Include a **screen-recording video of your live, working project** in the **README.md** of your GitHub repository.

FAQs

Q. What Tech Stack to use?

A. You can use any tech stack as per your expertise.

Q. Can I use AI to build the solution?

A. Yes you can use AI Tools like ChatGPT, Emergent, Co-Pilot etc. to build the solution for rapid prototyping. But make sure you understand the platform that you have built.

Q. Will I get a certificate?

A. Yes, but only if you have done a Valid Submission.

Q. When will the results be announced?

A. The results will be announced within a week's time of the hackathon submission.

Q. When will the certificates be given?

A. Certificates will be issued only to Valid submissions defined as public gitHub Repository and a working prototype as per the problem statement. The certificates will be issued within 7 Days of the hackathon.

Q. How will I get the certificate?

A. You will get a digital verifiable certificate via your email within 7 days of the hackathon.

Q. How much time do I have to make the submission?

A. Submission Deadline is **7th Feb, 2026 10AM**. You can check Unstop Portal.

Q. I have more doubts, how can I contact the UnsaidTalks Team?

A. You can reach out @ +91-7303573374 on whatsapp or @ info@unsaidtalks.com if you have any doubts or feedback for us.

Q. Where do I have to submit the solution?

A. You need to upload the code in your public github repository and submit the link on the unstop portal where you did registration.

Q. Who is organizing this Hackathon?

A. This hackathon is organised by UnsaidTalks Education (www.unsaidtalks.com) - India's Leading Mentorship Platform helping 1000s of students get Interview ready and helping them crack internships and jobs via network of Industry Professionals from Google, Amazon, Microsoft and other Top Tech Companies. Currently admissions are open for April '2026 batch for Build4Hire Program. Details can be found here: <https://unsaidtalks.com/build4hire-webdev-genai/>
